### Genetic testing in Leonbergers

You have contributed samples to our research project, thank you very much. In the meantime we applied the recently developed DNA tests that allow the unequivocal diagnosis of LPN and LEMP carriers. Further details are given at: [http://www.genetics.unibe.ch/services/index\\_eng.html](http://www.genetics.unibe.ch/services/index_eng.html)

Lab ID	Dog	Kennel	Breeding ID	Chip ID	Sex	DOB	LPN1	LPN2	LEMP
LB5578	Celine Angel	Leon Kral'ovce	1611	941000015517553	f	16.07.2013	N/N	N/N	N/N

The diagnostic tests were carefully conducted using state-of-the-art methodology. Nevertheless, errors cannot be excluded with 100% probability, as there is for example always a very small possibility of novel unknown DNA mutations. We therefore cannot give a warranty on the accuracy of the results. Any liability for subsequent damages in the course of an incorrect test result is excluded.

Kind regards

Prof. Dr. Cord Drögemüller

The International Leonberger Union (ILU) wants to publish the LPN and LEMP genotypes. Therefore, ILU pleases you to e-mail this page to [secretary@leonbergerunion.com](mailto:secretary@leonbergerunion.com) or to send a hard copy to: International Leonberger Union, Hein Sibrijns, La Tissière, F-03130 Loddes.

**Invoice (Facture)**

1 x Genetic testing LPN1+LPN2+LEMP (175.00 EUR)

**Total (net)      175.00 EUR**

For which amount we request your transfer, please state invoice number **LB5578**

**Remitter:** Universität Bern, Institut für Genetik

**IBAN** CH5309000000603151885
